

COMMONS PROGRAM COURSE APPROVAL FORM

This form is to be completed by faculty seeking approval from the Commons Steering Committee for the addition of an existing course to the Commons Program curriculum. Faculty may propose that an existing course be added to the Studies in the Liberal Arts and Science category of the Commons curriculum, or that a new course option be included in the Engaged Citizenship: Issues and Action group of courses. Program chairs can also use this form to propose adding a writing-intensive course in the major that would substitute for the ENG 111 general education requirement. Submit the completed form to the Commons Program Director.
