Tusculum College intends to maintain a positive learning environment which respects people, regardless of their differences, and that is inclusive. Inclusion means that the College intends to provide all people who meet our high standards and who are interested in being a part of the College, an opportunity to contribute to our success. No one should be excluded from our education environment for reasons not related to their ability to help meet the College's goals. Diversity refers to the ways people differ, including, for example, age, disability status, educational level or background, regional origin, job function or level, family status, socio-economic status, sexual orientation, national origin, language, culture, physical appearance, religion, gender, and race or ethnicity.
